DAGANA DZONGKHAG ADMINISTRATION

DDA/PA-14/2021-2022 / 7058

28th June 2022

Public Notification

This is to notify the general public that with the onset of monsoon, numerous landslides and flash floods are reported along the Sunkosh- Dagana Secondary National Highway, causing damages to the road and bridges. In particular, the Department of Roads, Tsirang has reported that the wing wall, abutment and foundation walls of Ampichu and Panachu bridges under Tashiding and Tsendagang Gewogs were damaged partially, posing risk to the heavy vehicles to travel.

In this regard, since the above-mentioned bridges were weakened due to the recent flash floods, commuters are notified to exercise extreme caution while traveling and follow the load bearing capacity (18 MT) of the bridges to ensure safety of all the commuters.
